February 13, 2018

Re: Dr. Huan Hu

Dear Dr. Hu,

With this letter, I invite you to visit the University of Windsor, Ontario, Canada, as a visiting scholar during the period from July 23, 2018 to August 21, 2018 to carry out some lab work related to our collaborative research.

I understand that during your visit, you shall not be paid by the University of Windsor and will cover your expenses by your own funding from China.

I hope you will accept my invitation so that we will be able to work intensively on our joint research projects. This would also give us an opportunity to plan additional scientific projects in the future.

With best wishes,

Dr. Mingqian Wu
