Berlin, 14.05.2019

INVITATION

Dear Dr. Jing-Hong Yang:

I am pleased to invite you to visit our lab to discuss the research progress of our joint cooperation on Geochemistry of The Precambrian-Cambrian biosphere (R)evolution in Yangtze Platform, South China” during August 5-18, 2019.

I understand that the costs for your visit and stay in Germany will be covered by your own grants from Nanjing University and National Science Foundation of China. I will make all necessary arrangements including the office space, accommodation and local transportation for your stay in Germany, and you can stay in my house (address and telephone: Dahlemer Weg 212A, 14167 Berlin, Tel. 030 817 1570) during your visit in Berlin if you do not mind. We will also organize a field trip to see some of the South Germany geology, and the final program will be decided later on.

I hope this letter can help you in your visa application. I am looking forward to welcome you in Germany.

Sincerely yours,

Prof. Harry Becker

The tentative schedule for your Germany visit is as follows:

August 5, 2019: arrive in Germany

August 6 to August 17, 2019: stay in our lab to carry out joint research work and spend several days for a field trip to Frankfurt and Munich areas.

August 18, 2019: leave Germany.
