15th May 2018

LETTER OF INVITATION

Dear Dr. Li,

It is my pleasure to invite you to participate in a geological fieldtrip in the Tremp-Graus and Basque-Cantabrian basins in the southern Pyrenees, Spain, between the 9th July and 20th of July, 2018. The fieldtrip will be focused on the stratigraphic record of the PETM in the western Tethys and the tectonic evolution of Pyrenean orogenic belt.

Hotel accommodation has been booked in localities around the main outcrop areas, in the provinces of Huesca, Navarre and Biscay. However, you will be responsible for covering all the expenses (traveling, insurance, car rental, accommodation, and others) during your visit to Spain.

Please submit this letter to the Spanish Embassy when applying for your visa.

I look forward to welcoming you in Spain in July.

Aitor Payros
Department of Stratigraphy and Paleontology
University of the Basque Country
