Dear Yin-Chuan Li,

Goldschmidt2018's submitted abstracts have now all been scheduled and the schedule reviewed by the session convenors and science committee. It looks to be an exciting and busy program.

Abstract Presentation Details

We are pleased to be able to confirm that your abstract Equilibrium Boron Isotope Fractionation between Boron-Bearing Minerals and Fluid Reservoirs (gold2018:abs:2018002383) is accepted for presentation at Goldschmidt2018. It is scheduled for Oral presentation at 10:30 on Monday 13th August as part of session 03a: The Fifth Element: Boron isotope geochemistry. The full program is now available on the [conference website](#).

Every effort has been made to schedule each abstract appropriately, but some authors will find that the final scheduling does not exactly match their submission requests. There were far more requests for oral presentation than there are oral slots. This means that some abstracts which requested oral have been scheduled as poster. We are sorry for any disappointment, but the oral slots are all filled and so it is not possible to give any further oral presentations. Some authors will find that their abstracts are not in the session they originally submitted to. This may be due to session merger or other constraints.

Preparing your slides

Delegates making preparations for their presentations with Windows 10, should be sure to use Office / PowerPoint 2016, and or Adobe Reader. Delegates who have prepared their presentations using Apple Keynote should ensure the presentation has been converted to PDF or PowerPoint before uploading. The recommended aspect ratio is 16:9, however 4:3 will display on the meeting room screens also.

Upload in advance

Goldschmidt2018 has an uploading system which will allow your to upload your presentation before you arrive at the conference should you wish to. You may replace the uploaded version with a new version at the conference if you wish to. Please [follow this link to your presentation upload page](#). Please do not share this link with your colleagues who are also presenting, because this page is for this abstract only. They will receive their own individual

link to upload their work. If you have another presentation, you will also receive another email containing the upload link for that presentation. If you wish to upload in advance please make sure that you have uploaded your presentation by 23:59 CET August 11th to ensure it is ready for your session. We strongly advise those giving talks on the Monday morning to upload their talks by this method.

Upload onsite

Talks must be uploaded in the room on which the talk is to be given directly onto the PC in that room. Talks can be uploaded between 08:00 and 08:30 and between 13:45 and 14:15 in the room in which you are speaking.

Can I use my own computer?

Your computer may be used to give your talk but no extra time for making or checking the connection can be allocated. You will be responsible for providing any connector required to join your computer to the projection system.

All delegates, for their own peace of mind, should also bring a copy of their presentation on a USB key.

Sincerely,

Daniela Rubatto and Tim Lyons
