Invitation Letter

Dear Professor Wang,

I am delighted to invite you to come to France in August 2019 to visit the metro networks operated by our company.

The purpose of these visits is to collect the geologic data of our networks for the assessment of the geologic conditions in order to propose recommendations to the long term maintenance strategies of our networks, within the frame of your research program.

We understand that all the travelling expenses related to the visits are borne by your Project No. 41372065 (National Natural Science Foundation of China).

We are looking forward to meeting you soon.

Yours Sincerely,

Georges Geng
Commercial Director
International Division
