Dear Xiaolei,

As chair of the 2023 Geochronology Gordon Research Conference, it is my pleasure to invite you to participate in this conference and to present a talk based on your research. The conference will be held Sunday, August 13, 2023 to Friday, August 18, 2023 at Mount Snow, and I would like you to speak on Thursday, August 17, 2023 in the following session:

Batholiths and Super Eruptions

Please respond to this invitation by clicking [here](#). If you confirm you are able to speak, you will be contacted closer to the conference dates to request your talk title.

As an invited speaker, we aim to heavily subsidize your registration fee to support your attendance at the conference, and some portion of your travel costs may be reimbursed based on the success of my fundraising efforts. In order to provide this financial support, you must stay for an absolute minimum of 24 hours after your session, and ideally you will be able to participate the entire week. This will allow conference participants to fully interact with you and further discuss your research.

Please let us know within the next week if you are able accept this invitation by clicking the link above to accept through your myGRC account. We look forward to hearing from you soon.

Sincerely,

Blair Schoene & Leah Morgan  
2023 Geochronology Gordon Research Conference
